ALEX MORGAN
Full Stack & Machine Learning Engineer | New York, NY
Email: alex.morgan@example.com | GitHub: github.com/alexmorgan | LinkedIn: linkedin.com/in/alexmorgan

PROFESSIONAL SUMMARY
Results-driven Software Engineer with 4+ years of professional experience designing, building, and deploying scalable web applic

CORE TECHNICAL SKILLS
- Programming Languages: Python, JavaScript, SQL, HTML, CSS
- Backend & Frameworks: FastAPI, Flask, Django, RESTful APIs
- Machine Learning & Data: scikit-learn, pandas, NumPy, Machine Learning algorithms
- Cloud & DevOps: Docker, AWS (S3, ECS, EC2), Git, CI/CD pipelines
- Databases: PostgreSQL, MySQL, Redis

PROFESSIONAL EXPERIENCE
Senior Backend Engineer | DataCloud Solutions (2022 - Present)
- Architected and deployed microservices using Python and FastAPI handling 10M+ daily API requests.
- Containerized backend workloads using Docker and orchestrated deployments on AWS ECS, reducing deployment latency by 35
- Implemented automated data preprocessing and feature extraction pipelines with pandas and NumPy.
- Built tabular classification and clustering prototypes with scikit-learn to detect anomalies in real-time server telemetry.
- Collaborated with cross-functional product teams using Git, GitHub pull requests, and automated testing suites.

Software Engineer | Apex Systems (2020 - 2022)
- Developed and maintained responsive full-stack features using Python, Flask, HTML, CSS, and JavaScript.
- Wrote optimized complex SQL queries and database migrations in PostgreSQL, improving dashboard query speed by 40%.
- Integrated third-party analytics APIs and secured endpoints with OAuth2 and JWT authentication.
- Maintained 90%+ unit test coverage with pytest across core business logic modules.

EDUCATION
Bachelor of Science in Computer Science
University of Technology (Graduated May 2020)
